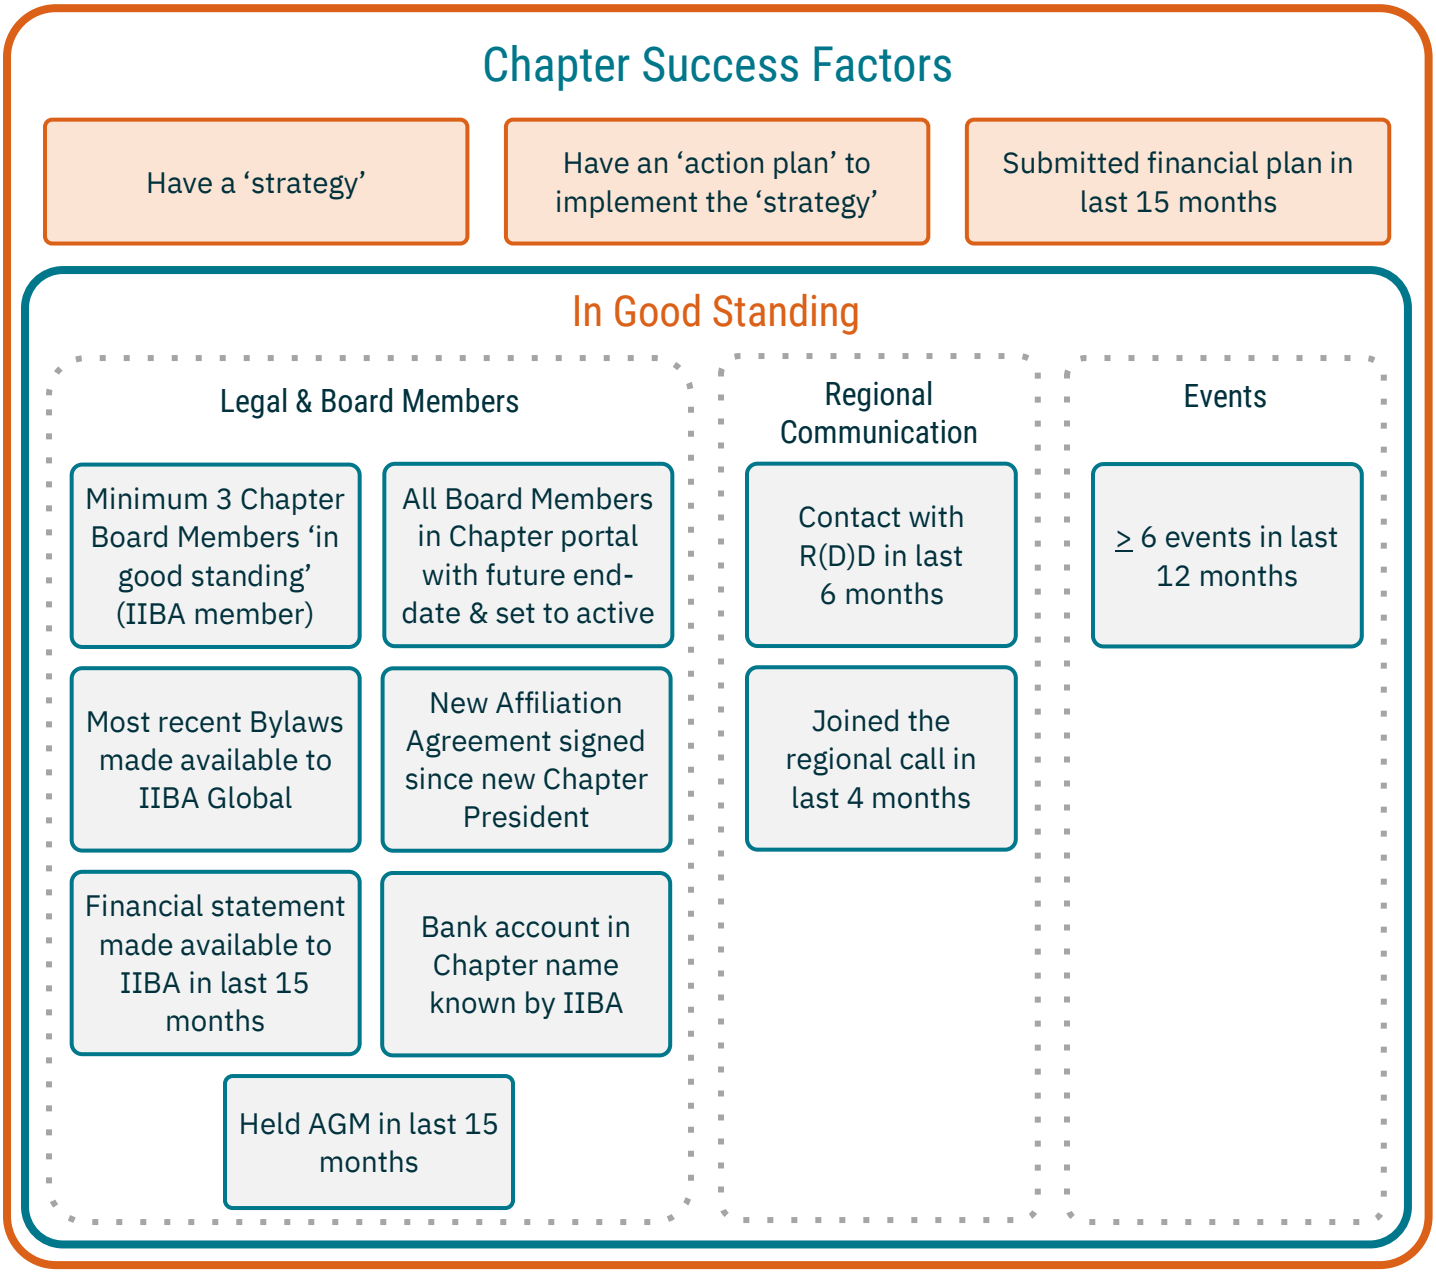
1 Introduction

As an essential part of our community, defining and representing IIBA at the local level, it is important that IIBA Chapters (Chapter) ensure that our community has a consistent and engaging experience. For that reason, a set of success factors have been identified. Chapter Board of Directors Members (Chapter Leaders) should aspire to govern the Chapter in a professional manner, meeting or exceeding the Chapter success factors laid out here.

2 GCC Success Factor Discussion

Much discussion went into identifying and defining Chapter success factors, and the image below captures the terms used to determine what those factors would be.



3 Code of Conduct

Chapter Leaders shall maintain the highest standard of conduct, act with fairness, integrity and dignity; in a manner not detrimental to the interest of the local Chapter, IIBA Members (Member), IIBA or the public. They shall not violate any laws in the performance of their duties, and agree to abide by this Code.

Chapter Leaders agree to:

- Abide by all applicable laws, codes, and regulations, and to protect the public against fraud and unfair trade practices.
- Refrain from discriminatory, illegal, unethical, and unprofessional business practices or activities that can be viewed as inappropriate, illegal, unethical, complicit, collusive, disrespectful or may bring real or perceived harm to the reputation of the individual Member, the Chapter or IIBA.
- Present or supply products and services honestly without misrepresentation.
- Respect all individual Member's personal information, data, privacy, financial information, and intellectual property rights.
- Respect the Chapter's confidential information, data, business relationships, financial and tax data, and intellectual property rights.
- Provide fair and responsive service before, during and after all business transactions.
- Share knowledge, expertise, and skills to advance the profession while respecting the confidentiality of Members and associates.
- Make a full and frank disclosure to Members and associates of all material terms of any agreement with them.
- Comply with all lawful contractual obligations.
- Operate the Chapter and/or conduct all IIBA activities and interactions and/or manage any IIBA assets or resources with high standards and accountability.

4 Chapter Minimum Success Factors

To be classified as an active IIBA Chapter, the Chapter must meet or exceed the minimum success factors laid out here. The Chapter will be reviewed periodically by the Global Chapter Council (GCC) and IIBA staff. Reviews will help identify if the Chapter is struggling and give it the opportunity to elevate its standards.

4.1 Board of Directors

The Chapter's Board of Directors is the governing body of the Chapter. For the Chapter to be active and sustainable, it must be led by a Board of Directors team, not just one or two individuals.

4.1.1 Member in Good Standing

IIBA is a Member-driven organization, and all Chapter Leaders must be Members in good standing (membership paid up, expiry date in the future). A Chapter Leader will maintain his/her/their membership.

4.1.2 Number of Chapter Leaders

The Chapter is required to have a minimum of three Members on its Board of Directors. IIBA recommends an initial Board be made up of President, Treasurer/Finance and one other.

4.1.3 Active Role

In the Chapter Portal, the Chapter Position Status of each Chapter Leader (minimum 3) must be set to Active. This flag indicates to IIBA that the individual is an active Member of the Chapter's Board of Directors, will receive all relevant communications and have a Chapter Leader badge, allowing them access to the online Chapter Resources.

4.1.4 Future Term End Date

In the Chapter Portal, each Chapter Leader must have a defined term end date in the future. A Chapter Leader with a term end date in the past is no longer considered to be part of the Board or Directors.

4.1.5 Role-Based Emails

Chapter Leaders are expected to use the role-based email accounts provided by IIBA for official Chapter business. Access to IIBA online assets will only be granted to legitimate IIBA role-based email accounts.

4.2 Events

To establish and maintain a vibrant community, the Chapter is expected to hold events on a regular basis. By having a consistent rhythm, events can become a "habit" for Members, giving them something to look forward to, and allowing them to connect, learn and grow. A higher frequency of events leads to higher engagement and higher retention of Members.

4.2.1 Event Planning

Planning is an integral part of business analysis and the Chapter needs to plan, schedule and promote events well in advance to give attendees ample time to fit the event into their schedule.

4.2.2 Event Promotion

Events must be entered into the Chapter Portal for publication to the Chapter Events Calendar on IIBA's website so that the community has visibility into events happening around the world. This also keeps a record of the Chapter's engagement with the community, a metric used to ensure that the Chapter's plans are being executed, that their community is being engaged on a consistent basis and that success factors are met. The Chapter is also encouraged to showcase events on the Chapter website. (IIBA's website and Chapter websites are not at present inter-connected).

4.2.3 Events Per Year

The Chapter must have a minimum of six events in a calendar year and at least three of those must be professional development opportunities. The Chapter should have held at a minimum, one event within the past 90 days and scheduled one event within the next 90 days. Having more than six events in a calendar year is highly encouraged. Chapter events qualify for Professional Development (PD) hours or Continuing Development Units (CDUs)

4.2.4 Event Types

Events can be in-person, hybrid, or virtual and include, but are not limited to:

- Meetings
- Social events
- Jointly sponsored events
- Study groups
- Conferences (e.g., Professional Development Days)
- Annual General Meeting (required)

4.2.4.1 Professional Development Opportunities

Professional development events allow the community to learn business analysis tools, techniques, and skills to further their professional development and can be speaker presentations, watching together IIBA recorded webinars, panel discussions, workshops, and/or professional development days.

4.2.4.2 Social/Networking Events

The Chapter is encouraged to unite its community through non-development activities in addition to the ones for professional development. Social and networking events are key to the growth of individual Members and the Chapter. These opportunities can be stand-alone events, can be in-person or virtual (e.g., a virtual brown bag lunch or coffee) and/or tied to an existing professional development event. There are no minimums for social or networking events.

4.2.4.3 Annual General Meeting

The Chapter must hold an Annual General Meeting (AGM) at least once every calendar year. At any point within the year, the most recent AGM must have taken place no longer than 15 months prior. The Members must be given advance notice of the AGM as stipulated in the Chapter's bylaws. The Chapter must provide IIBA documentation of the event as confirmation that the AGM was held. This may include the presentation materials, a link to the minutes of the AGM, election results, etc. shared during the event.

4.2.5 Event Pricing

The Chapter will create event pricing models with different pricing for Members and non-Members. Non-Members must not benefit over Members.

4.3 Regional Communication

Communication between the Chapter Board and their Regional/Deputy Regional Directors is an important part of overall Chapter health. Successful Chapters will communicate and collaborate with their Directors frequently beyond the monthly regional calls. The ideal communication frequency is at least once per quarter to maintain an open dialog between the GCC and the Chapter.

4.4 Incorporation / Government Registry

The Chapter must set itself up as an incorporated, not-for-profit independent legal organization, where allowed within its jurisdiction. In different parts of the world, there are different requirements for setting up such an organization and it is the Chapter's responsibility to set up and maintain itself as this legal entity. Chapters that are not incorporated put their Board Members at risk of personal liability.

4.5 Financials

The Chapter is required to maintain records related to its programs, activities, finances (balance sheet and income statement), and operations and submit to IIBA an annual report summarizing these items. The report can be in the format of the Chapter's Annual General Meeting report, or a simple Excel spreadsheet. Please upload and submit financials via this online form. If needed, use the Chapter Financial Statement Template.

4.5.1 Bank Account

The Chapter's bank account must be in the Chapter's name and set up so that two signatories are required to sign cheques and change the account.

If the Chapter uses a credit card, or a debit card connected directly to the bank account, it is best practice to review the transactions monthly with a Chapter Leader that does not have access to the card.

Submission of the Chapter's financial/banking information via a secure link to IIBA is required so that direct deposits and wire transfers to the Chapter can be facilitated.

Important! Different jurisdictions have varying requirements with regard to the establishment and ownership of bank accounts. Chapters should work directly with their Regional / Deputy Regional Directors and IIBA to address any individual requirements that deviate from the standard.

4.5.2 Other Payment Gateways

Other payment gateways such as PayPal should also be in the Chapter's name and should be attached to a role-based email address. Charges should be reviewed monthly similar to that of a Chapter credit or debit card.

4.6 Documentation

For the sustainability and security of the Chapter, the Chapter is required to maintain records related to their programs, activities, finances, and operations. All Chapter documentation must be stored in the Chapter's IIBA-provided repository; and all communication and exchange of this documentation must be executed with Chapter Leaders using role-based emails. The documents referenced in 4.6.1 to 4.6.3 need to be shared with IIBA. With the exception of the financial statement which is uploaded via **online form**, Chapters must share Chapter documents with IIBA by sending them to chapter@iiba.org.

4.6.1 Affiliation Agreement

The Chapter Affiliation Agreement (Agreement) binds the Chapter to IIBA by declaring a set of obligations agreed upon by the Chapter. IIBA requires submission of the latest version of the Agreement with the current Chapter President. When a new Chapter President is elected, a new Agreement must be submitted within three months of a change in Chapter President. It is expected that the Agreement be shared with new Chapter Leaders as they begin their terms. Download the Chapter Affiliation Agreement for completion.

4.6.2 Volunteer Terms and Conditions

The Chapter will have each new Chapter Leader and Committee Member agree to IIBA's Volunteer Terms and Conditions. Share these instructions:

- Go to: Chapter Volunteer Terms and Conditions
- Click **LOG IN (top right of page)**
- Enter **login credentials from your IIBA Profile that you use to login to IIBA.org**
- Click **Express Interest**
- Click **Volunteer Terms and Conditions** and read the document
- Check **I Agree to the Volunteer Terms and Conditions**
- In **Additional Information**, enter Chapter name and the Board of Directors position you will be assuming. (no need to upload any files)
- Click **Submit**

4.6.3 Bylaw Changes

Bylaws should be periodically reviewed by the Chapter Board of Directors and changes should be proposed to the Membership to be voted on at an annual meeting of the Chapter duly called and regularly held for that purpose. A copy of the Chapter's current bylaws must be on file with IIBA and should be posted to the Chapter Website for transparency to Members. Changes to the bylaws must be forwarded to IIBA at chapter@iiba.org.

5 Incorporation Documents

Upon incorporation/registry, the Chapter will receive documentation proving it has been incorporated/registered. This documentation must be forwarded to IIBA at chapter@iiba.org.

5.1 Strategic Plan

A Strategic Plan is strongly recommended. The Chapter should develop at least a simple strategic plan, outlining its goals and objectives. Strategic planning will help the Chapter develop the right goals and targets, and a strategic plan sharpens focus and establishes the direction needed to get there.

5.2 Financial Plan

A Financial Plan is strongly recommended. The Chapter should develop a financial plan; review it monthly by the Chapter Board of Directors; and share annually at its Annual General Meeting. The financial plan is a tool to analyze the Chapter's financial state and provide budgeted projections to support the Chapter's operations.

5.3 Business Plan

A Business Plan is strongly recommended. The Chapter should develop, at a minimum, a document outlining the mission and vision of the Chapter as well as its annual goals and objectives. A Business plan includes detailed information that can help improve the Chapter's chance of success.

6 Chapter Status

The Chapter is considered in good standing when it abides by all IIBA bylaws and when the minimum success factors set forth in section 3 are met. If the Chapter does not meet the minimum success factors, it may fall into suspended status. The Chapter will be coached throughout the year to prevent it from being suspended.

6.1 Good Standing

A Chapter in good standing will receive all the benefits of being affiliated with IIBA and will be able to:

- Hold events under the IIBA umbrella
- Use IIBA logos and associate itself with IIBA
- Be covered by IIBA Chapter insurance
- Be part of IIBA's Chapter Awards program
- Participate in IIBA mentoring programs
- Have access to Chapter technology platforms (Zoom, website, GSuite, etc.)
- Receive its portion of revenue from new/renewed IIBA memberships. (*Disbursed when a threshold of $75 has been met.)*

6.2 Suspended

A suspended Chapter has lapsed in its commitment to the business analysis community and should be working to revitalize its Chapter. It will be able to:

- Hold events under the IIBA umbrella
- Use IIBA logos and associate itself with IIBA
- Have access to Chapter technology platforms (Zoom, website, GSuite, etc.)

The Chapter's portion of the IIBA membership revenue will be held by IIBA until the Chapter is back in good standing.

6.3 Closed

A closed Chapter is one that has either progressed through suspended status without resolution, or a Chapter that has chosen to close. After closure, the following will occur:

- The group will cease to use all IIBA programs and affiliations to IIBA including logos
- All Chapter technologies will be shut down
- Any outstanding Membership revenue will be forwarded to Connections, the online community (Virtual Chapter)

7 IIBA Success Factors

Success factors apply to Chapters and IIBA. Chapters can expect that IIBA will provide the following to Chapters in good standing:

7.1 Chapter Website Service and Support

The Chapter is granted an instance of the current Chapter website platform. Chapter Leaders are provided with guidance on maintaining the website and are responsible for keeping the content up to date with the latest Chapter information. IIBA provides support for technical issues relating to the website through chapter@iiba.org.

7.2 Chapter Email Accounts

The Chapter is granted access to the Google Suite of products which include:

- Role-based email accounts
- Google Drive storage space
- Other Google apps

7.3 Online Meeting Service | Zoom

The Chapter is granted an online meeting service (one license) for Chapter related business, allowing Chapter Leaders to:

- Hold virtual Board of Director meetings,
- Broadcast Chapter meetings and events, or
- Host webinars

7.4 Communication and Support

IIBA collaborates and communicates with the Chapter through a variety of means:

- Monthly News and Resources (The Inside Look)
- Regional calls and forums
- Speaking engagements
- Email from chapter@iiba.org

IIBA's Chapters and Member Engagement team will provide guidance and support to Chapters upon request and endeavor to respond within two business days.

7.5 Chapter Leader Reports

Through the Chapter Portal, Chapter Leaders can retrieve various reports pertaining to its Chapter's Members and contacts. These are individuals that are in the Chapter's geographic area or have deliberately chosen the Chapter as their preferred Chapter.

7.6 Chapter Insurance

Provided the Chapter is in good standing and isn't located in areas of high political risk or under current United Nations sanctions, IIBA will provide insurance coverage for the Chapter which includes Directors and Officers of the Board. This insurance only applies to those Board Members within the Chapter Portal. The policy is automatically renewed every year.

7.7 Event Liability Insurance

As part of the insurance granted to the Chapter, Chapter events are covered under the blanket liability insurance policy. A certificate of insurance (COI) may be requested from chapter@iiba.org (minimum one week prior to event) should a venue require such proof.

7.8 Chapter Best Practices

IIBA will provide best practice guidance, frameworks and toolkits to support the Chapter Board of Directors the achievement of the Chapter's goals and objectives. These are kept on IIBA's website and are accessible to Chapter Leaders only as defined within the Chapter Portal.

Chapters are encouraged to share their best practices, templates, document, etc. with other Chapter Leaders by sending them to chapter@iiba.org. They will then be uploaded to the Chapter Leader Resources area of the website under Governance.
